The money goes directly and WITHOUT detours to the people / places that need it. The basic idea of helping with our association may perhaps be best described with a story:

An old man walked regularly along the beach early in the morning and one day he saw someone picking up something and throwing it into the ocean. When he got closer he saw that it was a child picking up starfish and throwing it into the sea.

"Why are you doing this?", the old man asked.

"Because the starfish will die laying here in the sun", the child replied.

"Well, you will have a hell of a job to do saving all of them, the beach is many miles long and there are thousands of starfish which are stranded! So there is no use in even staring".

The child looked at the starfish in his hand, smiled and while he threw it back into the sea, he replied: "For this one it will make a difference."
