We look forward to your same kind blessings and love through out the following years as well. These days we are on session ending's holiday. Our new session will start from 18th April 2018, Wednesday. We are here at this rented school premises since we start our school. It has been more than two decades now ! This is rented school premises and we face difficulties in facilitating our children with every facilities we wish to provide and also regular high rent. We need bigger rooms, larger play ground and more oversafer buildings. We are very happy to share you that sooner we are managing our own school premises where children receives more quality education in a nurturing and at safer place. From the school session 2019/2020 we will be shifting to our own school building where we will have safe building and better facilities for our kids. More over we can accommodate more kids from remote Himalayan region of Nepal. We will be staying here at current school premises for one more year only and then shifting to our own school premises. We are so excited and happy with these wonderful things happening for our children. It's all possible by kind support and tireless effort from our friends in Aspen, CO. USA.
