

KTM now - according to the principal of Marshyangdi school

namaste... With all our love and prayers... We hope and heartily pray that you, your family and friends are in sound health, in good spirit and doing fine at your hometown. Our hearts breaking with the news of casualties in many countries specially in Europe and America. It's beyond our imaginations...with the human life, with the social and daily life of humanity... Our heartiest prayers, thoughts and love are all with you... We pray for your good health and well being all the time...

Here in Nepal we are still under LOCKDOWN. It has been two months since we start staying at home. Everything still shut down. Now the COVID-19 is spreading in large numbers then early days. It's because of open border, southern Nepal bordering India. Till today there are 3 dead in Nepal, 450 positive infected cases and thousands in quarantine. Hundreds and thousands of people from Nepal are in India for Job and they are all coming back now. It's going to be very very difficult time as we don't have good health care facilities and human resources to tackle it. With the very limited source and facilities the government is trying to handle it. In Kathmandu itself there are 19 positive cases and much much more in southern Nepal. In India there are more than 105,000 positive cases and over 3500 dead. It's really alarming and serious for Nepal as we have very open and long long border with India. All of our kids are with their parents and family. They are much safer in their villages as no such cases detected in mountainous villages till now. We were supposed to start our school from mid April but couldn't do so because of this COVID19 pandemic. We even couldn't bring out the final exam reports as well as we had to closed down everything right after the final exam day. We will bring out the results after getting things into normal. We already missed more than month's school days but we can still adjust it with the holidays in coming months. Let's hope for better days sooner. Many of our parents are rely on tourism business like, porter, trek guide, small lodge and tea shops around mountains and hilly regions. They already missed the last season and there are no sign of getting better during the up coming tourist seasons in Nepal. They grows crops but only once in a year with the limited land. The tourism business has gone down totally to ground level since last March. It's going to be very hard days coming for our parents to survive. It's really going to be very hard time for every one in this world. I shall keep you writing on time to time about the situation. All my heartiest gratitude for all your love and support for our kids and I admire all your good heart and supporting the most deserving one. There are always a light after the dark side and we can definitely have the better days ahead With all our prayers, thoughts and love... STAY SAFE and BE STRONGER.... The news coming in from Europe really breaking our hearts. It's very very difficult time going there. Our hearts, prayers and thoughts are always with you. Please be very strong and keep hope with high spirit. You all gonna be fine and safe... and we heartily pray for it..... We in Nepal are all in lockdown since last two weeks. All our kids have gone home and are all safe, doing good with their family and loved ones in their villages. Till today we have 7 people infected (more in Ktm.) and few hundreds in isolation. It's less compare to other countries but we are taking every precautions and trying our best to be safe and fine. We don't know when we can start our school. Hopefully pretty sooner,,, let's hope for better days ahead... Once again,, all our love, thoughts and prayers are all with you... Please,,,, take very good care of your self, be safe and be very strong .. With all our love, prayers and thoughts.... We are at the end of the final exam day and kids are going home tomorrow for a month of time. We are very much worrying and concern about you because of the deadly pandemic coronavirus spreading all over Europe and Worldwide. Please, take good care of your self and be always at the safe side. Our love, prayers and thoughts are always with you. We pray for your safety, good health and well being all the time. Till today in Kathmandu-Nepal, we don't have such kind of cases but the Nepalese Government is taking every possible steps for prevention. We are completing our Final Exams tomorrow and kids will be leaving for home for a month of time as a session ending break. We hope and pray for better situation sooner We love you.... Stay safe Sonam MARSHYANGDI SCHOOL KATHMANDU NEPAL [Sent from Yahoo Mail for iPad](#)
